## C. E. Von Oven Receives Word Of Death Of Brother In Iowa, Result Of Strange Accident

O. E. Von Oven of 1315 Walnut street received word Friday of the death of his brother, E. H. Von Oven of Clinton, Iowa, who, according to a letter received the same day as the wire notifying him of his death, was injured in a most peculiar accident.

E. H. Von Oven, who owned a large farm at Clinton, was bedding his horses when one of the oldest horses he owned kicked at him and so struck the fork, which was knocked out of his hand, striking

him in the face and the metal part of the fork punctured his nose. At the time nothing was thought of it.

The doctors were not in the least alarmed but drove the inflammation away. However the poison worked into his jaw and developed into lockjaw, which resulted in his death April 7, after much suffering. The accident occurred the Saturday before Easter.

E. H. Von Oven leaves a wife, a 9-year-old daughter and a 4-year-old son.

## CHURCHES ORGANIZE BIBLE SCHOOL IN SUMMER TIME

CARL SEITTER, DIRECTOR AT METHODIST CHURCH, TELLS OF PROPOSED SYSTEM

Representatives from practically all the churches of Glendale, including pastors and Sunday school superintendents, met in the First Methodist Episcopal church last night to arrange for the holding and organizing of a summer session Bible school for the children of Glendale.

Carl Seitter, religious educational director of the First Methodist Episcopal church, presented plans to organize this kind of a summer school in Glendale. One of the conclusions arrived at was that all of the churches would cooperate and make this school interdenominational. It was also planned to have the city divided into several centers, each church to have some particular department such as the primary or junior.

It was decided to have the Bible school interdenominational, so that all the children of Glendale, whether they belong to any church or not, might attend.

Dates Are Decided Upon  
The Bible school is to be held from June 5 to 29, and the sessions will be from 9 a. m. until 12 o'clock, noon. Handcraft and other similar lines of work will be taken up in connection with the study of the Bible.

A superintendent will be chosen to direct this work, as will also a board of education, which will consist of the pastor and two other representatives from each church cooperating in this plan.

Teachers will be employed at a nominal salary. Each church and Sunday school will be permitted to select their own teaching force, but the plans must be passed upon by the board of education.

The next meeting, at which time plans will be perfected for this summer Bible school will be held in the First Methodist Episcopal church next Monday night.

WASHINGTON, D. C., April 19.—The senate foreign relations committee will take up the Knox peace resolution Thursday, Senator Lodge announced today.

## NATURAL GAS HERE IS DISCUSSED BY C. OF C. BOARD

CLAIM SAVING WOULD RESULT IN MONTHLY BILLS; MAY REQUEST FOR ACTION

At this noon's luncheon of the Glendale Chamber of Commerce directorate, Secretary James M. Rhoades brought up for consideration the desire and necessity of having gas served this city by the Southern California Gas company.

In a report from the State Railroad commission, he stated, they informed him that the Midway Gas company is presently delivering natural gas through a station in Glendale to Los Angeles where it is mixed with the manufactured product and returned to this city.

While the natural gas has 960 B. T. U. (British thermal units), the product delivered here has only 800 B. T. U., which means that it lacks one-sixth of the heat possessed by that which the Midway Gas company brings right to Glendale's doors, according to Mr. Rhoades.

Claims Saving in Gas Bills  
It is Mr. Rhoades' assertion that if this city was served with natural gas, there would be a saving of about 20 per cent in gas bills. This is due to the fact that it takes less natural gas to obtain more heat.

Should investigation reveal that the present situation merits action by the Chamber of Commerce, it is expected that a hearing before the State Railroad commission will be requested with a view of having the Southern California Gas company supply this city directly from the natural gas pipe lines of the Midway concern which pass through this city, along San Fernando Road.

## Program To Protect Against Profiteering

WASHINGTON, D. C., April 19.—A program to protect the people against profiteering was being arranged here today.

High government officials and members of congress were discussing remedies that will be attempted, although details of the program are as yet in process of development. The tentative program is:

First—A law requiring the manufacturers' cost and sales price to be marked on every article.

Second—An emergency force reporting directly to a cabinet officer, to present a statistical index of wholesale and retail prices in various parts of the country.

Third—The issuance frequently by this government agency of a "fair cost" list, including each article of common consumption.

Fourth—Congressional investigation of "open price associations" and alleged agreements or understandings among retailers.

Fifth—Investigation of high railroad rates and wages.

Crawford is arranging the music and Joe Griffin has taken the responsibility for a new series of jokes.

## Fishing Trip Results In Complete Success

The fishing trip, which was enjoyed last Sunday by Mr. and Mrs. Homer B. Miller and Mr. and Mrs. Walter Trautwein of this city was a success from an angling as well as from a pleasure standpoint, the party returning with a catch of thirty-seven. Mrs. Miller was the star of the day, catching one speckled beauty measuring fourteen inches in length.

The outing took place at the Rainbow ranch, a trout farm located twelve miles north of Redlands.

## Today's World News In Brief

(By United Press to Glendale Evening News)

ONTARIO VOTES TO GO 'BONE DRY' BY 1900 MAJORITY  
TORONTO, Ont., April 19.—Ontario voted yesterday to go "bone dry" by a majority estimated today on incomplete returns at 1900. The vote was to prohibit importation of intoxicating liquors. Ottawa, Toronto, Kingston and Hamilton went wet, but the rural vote overcame their majorities.

MEASURE PROPOSES RESTRICTION OF IMMIGRATION  
WASHINGTON, April 19.—Restriction of immigration would be put into effect on May 10 and continue to June 30, 1922, under the terms of the bills reported from the house immigration committee today. The measure in other respects is identical with the one pocket-vetted in the closing days of the last congress by President Wilson. It limits immigration during the restrictive period to three per cent of the nations of each country in America in 1910.

CHANGE IN BEER REGULATIONS UNDER CONSIDERATION  
WASHINGTON, April 19.—A change in the new beer regulations which, if put into effect, would permit physicians to prescribe medicinal beer without limit, is under consideration by the internal revenue bureau, it was learned today. As they stand at present the regulations restrict the amount of beer that may be prescribed for one patient to four and seven-eighth gallons a month. The proposed change would remove this restriction.

LITTLE CHANGE IN PRICES AT OPENING OF EXCHANGE  
NEW YORK, April 19.—Prices on the New York stock exchange were little changed from yesterday's close when the market opened today. Bears saw an opportunity in the Japanese situation as revealed in the state department's correspondence and sold on those developments. United States Steel was up ¼ but Crucible was slightly lower. Ails again were leaders, partly on Mexican reports of the administration's efforts to meet its debts.

HARDING'S AUTOMOBILE NARROWLY ESCAPES COLLISION  
WASHINGTON, April 19.—President Harding's automobile narrowly escaped collision here today with a motor truck. The presidential car was forced to the curb when the truck shot out from a cross street. The president was enroute to the union station, followed by secret service men and members of the party which was to attend the Bolivar statue unveiling in New York. The negro truck driver brought his machine to a stop when secret service men jumped from their car.

NEW WAGE OFFER MAY BE MADE BY COLLIERY OWNERS  
LONDON, April 19.—Renewed hope of a final settlement of the British strike situation arose today when a meeting of colliery owners was called. Following the triumph last night of Premier Lloyd George when he was given a vote of confidence on his handling of the situation, it was believed he would arrange a new wage offer by the owners. This offer then would be debated by the miners, who will hold a special session Friday. Meanwhile the fight against industrial paralysis continued. Although much of the machinery for fighting a general strike had been dispensed with, the special army of defense was recruited to full strength. The lines of unemployed lengthened today.

ABOUT \$200,000 IS DAMAGE DONE BY FIRE AT STOCKTON  
STOCKTON, April 19.—Starting with an explosion that was heard throughout the city at 2:30 this morning, fire completely destroyed the Menzies-Cantrell and Earle C. Anthony garages, damaged the new building occupied by the Dodge brothers, and several residences. The loss has not yet been determined, but will probably reach \$200,000. The firemen were handicapped by continuous explosions of gasoline in the buildings and could make little headway against the flames. Many new and stored automobiles, tires, and the like, were consumed. The fire was brought under control shortly before daylight. It is not believed any one was seriously injured.

## NEW YORK SUFFRAGE LEADER ENDS HER LIFE IN RIVER

NEW YORK, April 19.—The body of a woman found in East river last night was identified today as that of Mrs. Jessie Hardy Stubbs Mackaye, well known suffrage leader. Mrs. Mackaye disappeared last night after threatening suicide. Mrs. Mackaye, who, until she married Mackaye, was Jessie Stubbs, known as one of the most militant and ardent suffragists in the country, is said to have been suffering from depression and to have frequently spoken of suicide. While waiting with her husband for a train, Mrs. Mackaye suddenly turned and ran, according to Mackaye, and lost herself in the crowd before he or the nurse who accompanied them could overtake her. The body was identified by Charles Whitaker and Mabel Irvine, friends of the woman. The husband, Benton Mackaye, writer and expert in forestry, started immediately for Long Island City, where the body was taken after being removed from the river. Mrs. Mackaye was president of the Milwaukee Women's Peace society. She organized the famous suffrage hike in 1912.

## FORMER EMPRESS OF GERMANY BURIED AMID HONORS

POTSDAM, April 19.—The exiled Empress Augusta Victoria was buried here today amid honors denied her while living. Never a popular figure with the German masses, the former kaiserin was buried as a heroine with thousands of persons massing back of police lines to doff their hats and bow as the basket passed toward the mausoleum in which it was to be laid. The funeral train from Doorn panted into the royal station, Wildpark, before dawn today. Special trains from Berlin brought hundreds of mourners into the royal preserve. Mingling with the crowds were uniformed officers. Trains brought hundreds of wreaths, the fragrance of their cut flowers mingling with that of blooming trees in the royal park. General Von Hindenburg, in full uniform, was a prominent figure in the services. He was accompanied by Ludendorff and Mackensen. General Von Falkenhayn led a regiment of hussars, the only complete military organization in the procession. The general carried the crown of the ex-empress. The chapel in San Souci was chosen for the last rites, the former empress having so directed. The casket finally was to be laid in the mausoleum beside the remains of Frederick the Great and those of her son, Joachim, who committed suicide last summer.

## TRIALS OF PIONEER MISSION DUTIES ARE RELATED

ELDER F. H. WESTPHAL GIVES INTERESTING ADDRESS AT ADVENTIST GATHERING

Some idea of the trials and sacrifices incidental to foreign missionary work was conveyed by the address of Elder F. H. Westphal Saturday morning at the Seventh-day Adventist church. He has spent twenty-seven years in the field and his recital of pioneer work in Chili, South America; at the beginning of that time was intensely interesting. He described the cities of Valparaiso and Santiago as beautiful and comparing well with cities of the United States, having all modern arrangements.

Elder Westphal, in company with another missionary, on their arrival at their field of labor, Santiago, endured many hardships in order to carry on their work. On one occasion they started out on horseback to a distant place, where they were to hold a meeting.

### Endures Many Hardships

At that time there were no good roads and their way led up and down steep mountain sides, so much so that it was difficult to maintain their seats. Rank growths of tall bamboo-like shrubbery impeded their path, and it was through this shrubbery that the horses had to break their way. However, they reached their destination without serious harm.

At other times they had to walk long distances on foot, arriving with severely-blistered feet and starting out again before they were healed. Their efforts in behalf of the people bore fruit, and many were baptized and became Christians.

### Give Up Their Tobacco

Elder Westphal also told of an experience with one family which had several sons and to whose home he was invited to hold a meeting. All were vigorously smoking their pipes as he entered, and in the thickens of that atmosphere the missionary pointed them to a Savior who desired clean hearts, minds and bodies, and explained the terrible effects of tobacco. He was a little fearful of the results of such a plain-spoken talk, and withdrew to a forest to pray.

However, the family had taken the lesson in good part and after the missionary returned to them the father and sons proudly pointed to the ceiling, where they had hung their pipes in a cluster, signifying their renunciation of the habit. This same family was later baptized, he said.

## F. S. Card En Route To Denver On Sad Mission.

F. S. Card of 319 West Patterson avenue left Glendale last night for Denver, Colo., where he was called by the sudden death of his lifetime friend, Frank P. Goldsmith, a widower, who is survived by two daughters, Duane, aged 17, and Rosella, aged 11. Mrs. Goldsmith was a cousin of Mrs. Card and on account of the close, personal friendship of the two families, it is believed that Mr. Card will bring the two girls to Glendale to live as all of their close kin are residents of England.

Miss Bess Kidson, who arrived two days ago from New York City to live with her aunt and uncle, Mr. and Mrs. Card, seemingly arrived just in time to be company for her aunt while Mr. Card is away on the sad mission.

## Local Georgia People At Monthly Meeting

Several local Georgians attended the regular monthly meeting of the Georgia State Society last Saturday night held in Snead's hall on West Sixth street, Los Angeles. After the usual business had been completed a short program and dance was enjoyed. About 150 former Georgia "Crackers" were present.

Those who went in from Glendale to enjoy the "get together" were Mrs. Eva J. Cunningham of 114 North Orange street, and Mr. and Mrs. J. N. McGillis of 1003 East Lomita avenue.

### Dan Tracy Says That Business Much Better

Dan Tracy, who conducts a grocer-  
teria at 714 East Broadway, states  
that the grocery business has shown  
a marked improvement the last two  
weeks, not only in the increase of  
accounts, but in the tendency of pa-  
trons to buy more freely. In other  
words, people are not pinching pen-  
nies so closely.

This condition in local economies  
is indicative of more prosperous con-  
ditions. Business has not been bet-  
ter since the holidays, according to  
Mr. Tracy, who is in a position to  
feel the pulse of the pocketbook.

### ORIENTAL PECULIARITIES

Chinese medicine developed a spe-  
cial fondness for fossilized "dragon  
bones," derived from extinct herbi-  
vora. They are also fond of "dragon  
teeth," as fossilized shells are called.  
In Shantung, glue is made from  
asses' skins. In a certain town of  
that province is a well, the water of  
which, when drunk by asses, makes  
their skins especially good for mak-  
ing glue. This glue brings a fancy  
price, as it is a famous tonic through-  
out China.

Persons who believe they will be  
charged with evading the selective  
draft, but who did not actually do  
so, may escape the odium of being  
publicly branded as deserters, un-  
justly by communicating all the facts  
of the case to Adjutant General  
Harris without delay.

### Three Officers Held Guilty For Ship's Loss

SEATTLE, Wash., April 19.—  
Three officers of the steamship Gov-  
ernor, rammed and sunk by the ship-  
ping board freighter West Hartland  
off Point Wilson, April 1, are held  
to blame by United States steamboat  
inspectors for the collision that re-  
sulted in total loss of the passenger  
vessel and the snuffing out of eight  
lives, it became known today.  
Captain Harry Marden, pilot,  
Ernest Kellenberger, second mate,  
and Arne Hage, third mate—all of  
the Governor—are accused in the re-  
port of "inattention to the duties of  
their stations," as a result of which  
the fatal collision occurred.  
Captain Marden lives in Seattle;  
Kellenberger at present is in San  
Francisco, and Hage is in Tacoma.  
The findings of the board of in-  
quiry, which consists of Captains  
Donald S. S. Ames and Harry Lord,  
United States steamboat inspectors,  
were mailed to the three men last  
night.  
If the accused men plead guilty to  
the charges, they face one of three  
penalties—reprimand, suspension or  
revocation of their licenses. In  
event they plead not guilty, they will  
have to stand trial before the in-  
spectors. No date for arraignment  
has been set.

### Walker Grocery Stock To Sell At Auction

The Walker Grocery stock at 115  
South Brand boulevard will be sold  
at auction at 10 a. m. Wednesday,  
April 20, by S. W. Kohn, auctioneer.  
The fixtures also will be disposed of  
as the lease has been sold to the Tig-  
gly Wiggly corporation which oper-  
ates a chain of stores throughout the  
country. Besides the usual grocery  
equipment, meat market fixtures, a  
Ford delivery car, cash register and  
other things too numerous to men-  
tion will go to the highest bidder.

### Two Motorcars Crash; Women Drivers Unhurt

In a rather spectacular motorcar  
crash at the corner of Harvard street  
and Brand boulevard at 6 o'clock last  
evening, two large touring cars, one  
driven by Miss Lois Webb of 127  
West Chestnut street and the other  
by Mrs. E. H. Botsford of Sixth  
street, were both damaged. The ma-  
chine driven by Miss Webb had one  
fender smashed and a hub cap torn  
off while Mrs. Botsford's car got out  
of the mixup with a bent frame and  
a broken fender.

### G. OF C. DIRECTORS TALK OVER PLANS FOR INDUSTRIES

**W. O. BRUESS AT LUNCHEON OF  
BOARD MAKES STATEMENT  
REGARDING PROJECTS**

Directors of the Glendale Chamber  
of Commerce dined today at the  
model bungalow in the domestic arts  
building of the Glendale union high  
school. In addition to the directors,  
W. O. Bruess, an Ohio capitalist who  
proposes to establish large industries  
just west of Glendale, and members  
of the chamber's industrial commit-  
tee enjoyed the luncheon. Jesse  
Smith, vice president, presided in the  
absence of C. C. Cooper, president.

The Misses Dorothy Danner and  
Eleanor Foster of Miss Ellen J. Han-  
son's cooking classes prepared the  
meal which included salmon soufflé,  
baked stuffed potatoes, carrot timbals,  
Macedoine vegetable salad, hot  
rolls, orange marmalade, cake a la  
mode with strawberry whip, and cof-  
fee.

Table decorations were the Cecil  
Brunner roses and marguerites, the  
same motif being carried out in the  
menu.

One of the big questions coming  
before the directors was that of ob-  
taining natural gas for Glendale.  
Mr. Bruess submitted a proposition  
of having the factories which he is  
bringing to this vicinity known as  
"Glendale" industries, rather than  
Los Angeles, although the ground on  
which they are to be built lies within  
the corporate limits of the adjoining  
metropolis. Other routine matters  
were discussed.

The municipal council of Paris has  
decided to place a memorial stone at  
each and every place where a "Big  
Bertha" bomb shell fell.

A new world record for parachute  
leaping was made recently when  
Lieutenant Arthur G. Hamilton  
dropped 24,600 feet at Champaign,  
Illinois.

C. W. INGLEDUE, BACK  
FROM TRIP EAST,  
MISSES STORM!

**BUSINESS MAN ESCAPES FROM  
BLIZZARD; PROSPERITY IS  
CERTAIN IN GLENDALE**

C. W. Ingledue, proprietor of the  
Glendale Meat Market, 630 East  
Broadway, has returned from a fly-  
ing visit paid Chicago, arriving in  
Glendale last Saturday. In his ten  
days' travel, he reported the weather  
fine, except that it had snowed in  
Colorado, New Mexico and Arizona.  
He just missed the blizzard in Colo-  
rado by a few hours.

While the sun was shining at Chi-  
cago, a shade of gloom is noticeable  
among the packers and meat pro-  
ducers. Everyone is holding tight  
to their money and conditions are  
such that Mr. Ingledue says, Califor-  
nians should be glad that they live  
out here any away from the hard  
times, especially in Glendale.

"Glendale looks better to me than  
any place I visited," declared Mr.  
Ingledue, "for here is where pros-  
perity truly reigns."

much at home in English soil as in  
American.

Keech inherited a large fortune upon  
the death of his father, a Pittsburgh

Judge Sumnerfield of Los Angeles

wife and another man are alleged to

the Keeches was awarded to the hus-

## Girl Faces Embezzlement Charge

Miss Gladys Dewey was at liberty  
on her own recognizance in Los An-  
geles today awaiting a hearing on  
April 26 on a charge of embezzele-  
ment brought by Claude Alexandre  
of the Hotel De Luxe, San Francisco.  
The young woman is accused of  
having defrauded Alexandre of a  
\$250 diamond ring and \$50. He  
said he entrusted the ring and money  
to her care. It was whispered, how-  
ever, that he went to San Francisco  
from the east expecting her to marry  
him, but that she refused and came  
to Los Angeles.

Miss Dewey is not a bit perturbed,  
she said.  
"There is still another side to the  
case," she asserted, smiling. "You'd  
be surprised."

In the Atwater park tract of Los  
Angeles, just south of Glendale,  
thirty-four volunteer workers start-  
ing at 8:30 o'clock Sunday morning

Everything but the plastering was  
complete. The dwelling was built

## League Batting Crown Is Sought By Several

NEW YORK, April 19.—Struggle for the league batting crown promises to be as interesting this year as the hot pennant race in prospect. Joe Jackson, of course, will be missing from the list of contenders, but the sticks of George Sisler, Tris Speaker, Eddie Collins, Babe Ruth, "Baby Doll" Jacobson and Ty Cobb will make enough noise.

Just in his prime, the versatile young Sisler can be counted as the favorite but he will have some stiff opposition.

Tris Speaker, who chased the Brown first baseman all the way last season under the handicap of heavy managerial responsibilities, can be expected to do the same thing this year.

Then there is the ever dangerous and always able Ty Cobb who will try to emulate Speaker in making good on two jobs.

Cobb has sipped from the cup of glory too long to sit back contented and watch some one else usurp his old honors.

Having done about everything possible in the way of home runs, Babe Ruth is also known to have an ambition for the league leadership with the stick. If the bambino would take the murder out of his swing it is highly probable that he would be good for around .400—an exceedingly dangerous height for any stick to go against.

## Spring Football Work At Local High School

Coach Hayhurst of the Glendale high school has announced the beginning of spring football practice on the local field next Monday, April 24. It will be remembered that the local gridiron warriors made an excellent showing last fall, getting in the semi-finals for the Southern California championships, and it is Hayhurst's aim to repeat next year. Although over half of last year's aggregation will have graduated, there will still remain a nucleus of experienced players around which a winning combination can be moulded.

## Watching Scoreboard

Yesterday's hero—George Sisler. The American league champion hitter batted a triple in the eighth inning and brought in the run that gave the Browns a 3 to 2 victory over the White Sox.

Luque's great pitching and sparkling work on the field enabled the Reds to beat the Cards, 4 to 0. May was given the gate for disputing a decision.

Tyler was wild and gave the Pirates four runs, but the Cubs hammered three of Gibson's pitchers and won, 7 to 4.

All other games—rain, snow, etc.

## WAR OF SKY AND SEA

A lordly battle of the sky and sea is to be staged by the United States army and navy in June. All types of airplanes and balloons, including many Martin bombers, will be assembled at Langley Field, Va., and will set upon a man of war.

Those who contend that the battleship is still the bulwark of our first line defenses and those who think aircraft has been sufficiently perfected to justify the consignment of all the superdreadnaughts to the junkheap, will have here the practical test and combat of their theories.

It is remindful of the days of the Monitor, and her classic encounter with the Merrimac. From wood to iron to steel has been a process of evolution in shipbuilding, all within about a century, that has changed the entire course of navigation. If the time is coming when winged ships will carry the world's cargoes above the seas, not on their surface, it is well to herald the development and to prepare for it.

Certainly no warlike attitude need be seen in the determination of the army and navy to give sea bombing a thorough, accurate tryout. Every one wants them to keep abreast of the times, on land, on sea and in the air.

## Spencer Of Seattle Leads In Stick Work

SAN FRANCISCO, April 19.—Spencer of Seattle took the Coast League batting honors this week among the men who have played in five games or more since the season opened.

Spencer hit for an average of .500. Others come in the following order: Siglin, Salt Lake, .500; Bates, Seattle, .474; Pick, Sacramento, .468; Fisher, Portland, .444; Kamm, San Francisco, .395.

Pick and Kamm would seem to be the real leaders, as they have played in twelve and eleven games, respectively. Batting averages were fattened materially in Sunday's games. Hard hitting marked a number of the games.

Oakland administered the second defeat of the season to the Seals in the morning game, a 5 to 0 shut out. In the afternoon the Seals came back and took an 8 to 6 victory.

Sacramento won a doubleheader from Portland, 1 to 0 and 4 to 1. Seattle fattened up a little by taking two games from Salt Lake, 11 to 6 and 4 to 2.

Vernon won the morning game from Los Angeles, 7 to 1, and the afternoon game went 14 innings to a 1 to 1 tie.

## Heavy Hitting Shown For First Of Season

NEW YORK, April 19.—Baseball's brief 1921 fling has given much to talk about, but the most noticeable thing about the early games was the heavy hitting.

The refusal of the Boston Braves, the Philadelphia Athletics and the Chicago White Sox to become door mats and lend a helping hand penitentiary for any of their fellows has also been noteworthy. The three clubs have shown fight that covers up weaknesses figured to make them poor contenders in the race.

The Athletics have a growing young ball club with pitchers that may come around in form enough to make the Philadelphia series anything but soft for any club.

The Braves have been showing strength with the bat. The poor work of Brooklyn all-star pitching staff also came into notice. The Giants likewise have not been strong on the mound.

Pittsburg showed the best form in the National league. Gibson's trio of slab artists—Cooper, Ponder and Hamilton, had too much for Pat Moran's reconstructed Reds and won the series easily.

Mays and Piercy seem to be the only pitchers of the Yankees in condition. The Browns also looked like a contender with the Cleveland Indians.

## Girl Makes Denial She Killed Infant

LOS ANGELES, April 19.—Hysterical denials that she had brutally murdered her infant child were reiterated today by Miss Erie Mullicane, 20, arrested after the babe's bruised body was found in a trunk in a dusty corner of a local storage company.

An employee searching a pile of trunks which had been stored there for months discovered the tiny body. A lace handkerchief was wound tightly about the neck and the skull was perforated as though a sharp instrument about the size of a pencil had been driven into it.

"I didn't kill the baby," Miss Mullicane sobbed. "I fainted after it was born, and when I regained consciousness the baby was dead. I wrapped up the body and put it in the trunk. Then I called for the storage man and he came and took away the trunk."

A mining engineer, whose name is withheld and who is reported to have vanished before the child's birth, was said by Miss Mullicane to have been the father of the child.

## NEW FISHING METHODS

A Lamont man who is charged with having taken a fish from a private fish pond declares the fish were so tame that one of them was eating out of his hand, and he simply closed his fingers on it and carried it away. ## President Harding To Speak In New York

ON BOARD PRESIDENT HARDING'S SPECIAL TRAIN, April 19.—Leaving Washington for the first time since his inauguration, President Harding made a hurried trip to New York today to deliver a message of good will to South America. Mrs. Harding accompanied him.

His speech will be the crowning event at the unveiling of the statue of Simon Bolivar, South American liberator, in Central Park this afternoon.

It will be his first discussion of Pan-American policies, that subject having been kept out of the inaugural address and his first message to congress and reserved for special treatment today.

A galaxy of notables will attend the ceremonies.

Harding left Washington after breakfast and is scheduled to be back at the White House before midnight. After the ceremony President Harding will make a hurried visit to the "lighthouse for the blind" to inspect the work of the sightless children being educated there.

## ATMOSPHERIC ACTION

The atmosphere of the earth acts very much in the same way as does the glass of a greenhouse—it allows the rays of the sun to pass through, but imprisons the heat. Thus it is cooler on the top of a mountain than at the sea level, because, though the mountain top is nearer the sun, the atmosphere is much less dense.

## Constance Talmadge Now At Palace Grand

Pleasurable anticipation greets the announcement that "Mamma's Affair," presented by Joseph M. Schenck and released by Associated First National, will be seen at the Palace Grand theatre today and tomorrow.

The always engaging Constance Talmadge carries off the stellar honors. It is the screen version of Rachel Barton Butler's Harvard University prize play, which enjoyed a Broadway success last season.

The sparkling lines which gave the play such vogue are preserved in the titles while the screen version, perhaps because the camera gives even wider scope to the scenes of merriment, is even more replete with laughs than the play. It is a fittingly chosen starring vehicle for the dainty comedienne.

"Connie" is said not only to repeat her former triumphs, but to ascend to new heights in her interpretation of the role of Eve.

A special two-part comedy offering, "All Wrong," goes well with "Mamma's Affair" and the musical program by the Palace Grand orchestra has the "Jolly Robbers" as its overture with "Amorita," "Love Me" and "Fluffy Ruffles" as popular numbers.

drove to an open field near town,  
poured gasoline over his clothes,  
started his machine full speed ahead,  
and set himself on fire. He col-  
lapsed after half a mile and was  
taken to the Orange County hospi-  
tal, where he died. He left a note  
stating he was convinced that he was  
a failure in life and for that reason  
had determined to die."The trouble with him was," said  
Homer L. Baker, noted character  
analyst and vocational expert, "that  
he did not make use of his natural  
talents, of which he, like everyone  
in this world had inherited his due  
share. No one need be a failure in  
life, if he will abandon the idea of  
forcing himself into work for which  
he is not fitted by nature. The great  
problem is to know what our talents  
are, and then have them properly de-  
veloped, in youth, by our parents,  
and by ourselves later."Mr. Baker has devised a system of  
seven short lessons, by which any-  
body can know how to read people  
on sight, including themselves, and  
so guide their lives, that happiness  
and success are inevitable. The in-

It's all about a young man, who, in

**GREAT INCREASE IN  
WESTERN UNION'S  
LOCAL OFFICE****SEVENTY-FIVE PER CENT MORE  
BUSINESS OVER PREVIOUS  
YEAR, IS DECLARED**J. M. Green, city superintendent of  
the Western Union Telegraph com-  
pany at Los Angeles, was a caller at  
the Glendale Western Union Tele-  
graph office on Sunday. He was quite  
impressed at the great increase in  
business which Manager R. E. Down-  
ing reports.Mr. Downing states that a 75 per  
cent increase is noted over last year's  
business at the same time which is  
indeed remarkable, considering busi-  
ness conditions in other parts of the  
United States. This business is  
largely attributable to the fact that  
several industries are located in the  
vicinity such as the Harrower La-  
boratories, Moreland Truck factory,  
Davis-Glendale company, Henry-  
Brown company and numerous oth-  
ers whose development has had a  
tendency to promote the telegraph  
company's traffic.**Improved Service Here**  
In fact, the day is not far off when  
there will be greatly improved ser-  
vice here, although nothing definite  
can be decided until business reaches  
a certain mark. But that isn't far  
off at the present ratio of increase.Manager Downing also makes an  
announcement of importance for per-  
sons having friends, relatives or busi-  
ness interests in foreign countries  
which are to be reached by cables.  
Half rate again is being charged for  
deferred cable messages, a service  
which was discontinued at the time  
America entered the war.It means that anyone who has a  
message to send to London, for in-  
stance, where the regular toll is 37  
cents a word, can have it forwarded  
at the convenience of the Western  
Union cables at 18 cents. This means  
a day or two delay, but is much more  
expedient than a letter.Just yesterday a Glendale Evening  
News representative overheard Man-  
ager Downing quoting the tariff on  
a message to Tahiti on the Isle of  
Papeete. In this instance it is sent  
by radiogram from San Francisco.**WONDERFUL HUMAN BONES**Human bones have a wonderful  
power of resistance. It has been

For Payment Of Debt**MEXICO CITY, April 19.—Presi-  
dent Obregon of Mexico today re-  
vealed to the United Press his plans for  
payment of the national debt and re-  
habilitation of his country."I have invited foreign creditors  
of Mexico to send representatives to  
hold a preliminary conference to de-  
termine a plan enabling Mexico to  
pay her debts," Obregon said.Mexico's debt amounts to \$275,-  
000,000. Obregon said the treasury  
now has about \$50,000,000, of which  
a portion will be released to pay  
back interest on the indebtedness.The president indicated that ar-  
rangements will be rushed for par-  
tial payment of the debt. This show  
of good faith will be utilized in the  
asking of the further loans and in  
petition in other governments for  
recognition. Other funds obtained  
will be used in improving the nation-  
al railways.Obregon's determination to reha-  
bilitate transportation was indicated  
when he dispatched Francisco Perez,  
director general of national railways  
to Monterey to confer with Ameri-  
can equipment men for the purchase  
of \$50,000,000 worth of rolling  
stock.Perez was said to have made par-  
tial arrangements for such purchase  
covering both new and second-hand  
cars and locomotives.At present the lines are hampered  
by lack of equipment and shortage  
of fuel. Freight is congested at  
nearly all stations.Obregon is believed to contemplate  
returning the roads to their owners  
when normal conditions have been  
restored.**Rat, Starving, Ends  
Life By Long Fall**SAN FRANCISCO—Financiers on  
Montgomery street are gossiping of  
the sensational case of the rat which  
committed suicide rather than starve  
to death.A week ago the rat—a fine, sleek  
specimen—fell down a light well and  
was imprisoned on the glass roof of  
a ventilator at a popular lunch place  
on the edge of the financial district.Each day business men looked up  
and discussed the fate the rodent was  
facing.Last night, gaunt and starved, it  
walked to the edge of the ventilator,  
peered down at the marble floor be-  
low, poised a moment and deliber-  
ately leaped to its death.**PATCHED-UP ORGAN**A prominent poetess writes: "My
